A web-based-training  
of the Common Assessment Framework CAF

German University  
of Administrative Sciences Speyer

# Design

## Technical framework:

To impart the knowledge and the content of CAF a learning-system with tutorial and interactive elements was developed.

## Development partner:

Digital Spirit, Wiesbaden (Germany)

## Financially supported by:

bm**b+f** - „Development of teaching and learning software in higher education for PUBLIC POLICY“

# Concept

## Content:

The CAF-Learning-System gives an overview of

- History and development of CAF
- Function and structure of CAF
- How to make a self-assessment

With the help of the learning-system you get to know the CAF and the criteria catalogue. It contains also a glossary and various multiple-choice tests.

## Target groups:

- Students from the universities of Speyer, Erfurt and Frankfurt/Oder
- Participants of the German CAF network (<http://www.caf-netzwerk.de>) and of the Speyer Quality award.
- Participants of training courses at the German University of Administrative Sciences Speyer
- Executive managers and experts in the public sector

## Purpose of the program:

- Introduction in quality management
- Introduction of CAF as an easy-to-use tool for self-assessment
- Introduction for the German CAF criteria catalogue

Launch of the german version (Internet and CD-ROM): April 2002
